In response to applicant's amendment dated September 20, 2005. The following action is taken:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 9 and 11 are, drawn to an optical pickup device, classified in class 369, subclass 44.29
- II. Claims 12-19 are, drawn to a light receiving unit, classified in class 369, subclass 44.41.

The inventions are distinct, each from the other because:

Inventions group one and group two are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination does not require the integration of the light receiving elements as claimed. The subcombination has separate utility such as image processing unit.

Newly submitted claims 12-19 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the claims are drawn to a integrated light receiving unit

Art Unit: 2655

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 12-19 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Please cancel non-elected claims --12-19--.

Authorization for this examiner's amendment was given in a telephone interview with Gianni Minutoli on October 05, 2005.

Claims 9 and 11 are allowed.

Any inquiry concerning this communication should be directed to NABIL Z. HINDI at telephone number (571) 272-7618.
